

### **Mulligan Concept Manual Therapy 2025 organized by Virtus Medical Group**

Mulligan Concept on manual therapy was firstly developed by experienced physiotherapist Mr. Brian Mulligan in New Zealand. The simple yet effective manual approach has been taught internationally since 1984 and practiced by physiotherapists and manual therapists with good reputations over decades. A two-day class will cover lower quadrant of the body with theory and practical activities. Participants like medical doctors, physiotherapist, chiropractors, Chinese medicine practitioners, sports therapists, and strength-conditioning trainers will find the course helpful to help clients with musculoskeletal problems, functional dysfunctions, and pain. This course will be instructed in Cantonese with English medical terms.

### **Gorman Ngai**

Gorman graduated from the Hong Kong Polytechnic University (PolyU) in 1997 to become a physiotherapist. He later earned the MSc degrees from PolyU and Curtin University of Technology in 2005 and 2006 respectively. He also holds the Diploma in Mechanical Diagnosis and Therapy from the McKenzie Institute, Certificate in Acupuncture, graduate Certificate in Sports Physiotherapy, and is a Certified Mulligan Concepts practitioner and instructor. His clinical experience spans public hospitals, private physiotherapy clinics and universities. In addition to working as a private practitioner and lecturer, he is involved in various sport teams providing on-field physiotherapy and teaching manual therapy concepts and skills in Asia. His main interests are spinal and sports injury disorders. Gorman started assisting other teachers in the MCTA to teach Mulligan concepts since 2002 and he was qualified as one of the MCTA member in 2008. MCTA is the only official association recognized by Brian Mulligan to allow the member to teach his concepts in the world.
