

Masterclass in the Clinical Management of Shoulder Impingement Syndrome

- **Application of Diagnostic Ultrasound** in the assessment of Shoulder Impingement Syndrome
 - application and limitation
- Differentiating **Tendinopathy, Partial Rotator Cuff Tear, and Non-Structural Impingement** — Assessment and Treatment
- **Pathomechanics** of Shoulder Impingement Syndrome and Clinical Application of **Biomechanics-Based Physiotherapy Treatment**, such as:
 - Scapulothoracic rhythm dysfunction
 - Rotator cuff muscle imbalance
 - Acromioclavicular (A/C) joint manipulation

Lecture Format –

Open to HK registered physiotherapists only

Professor Gary Shum

Registered Physiotherapist (HK, UK, Australia)
Professor in Biomechanics and Physiotherapy
PhD (University of Sydney, Australia, 2007)
Course director in Physiotherapy, UK

20 December 2025

(Saturday pm)

Time: 1430 – 1700

Venue: Tung Wah College, Ma Kam Chan Memorial Building, Homantin

HKPU Members: HK\$400

Non-HKPU Members: HK\$500

PT Core CPD Points: 3

Registration at:

<https://tinyurl.com/CPD1225>

(Bank transfer details, payable to HKPU, will be provided upon successful registration.)

Prof Shum is a senior academic who has also served as an Honorary Professor for local hospitals and as a Consultant Physiotherapist for the local professional basketball team.

These experiences have shaped his expertise in clinical biomechanics, research, and the management of complex clinical cases.
